Curb Opening

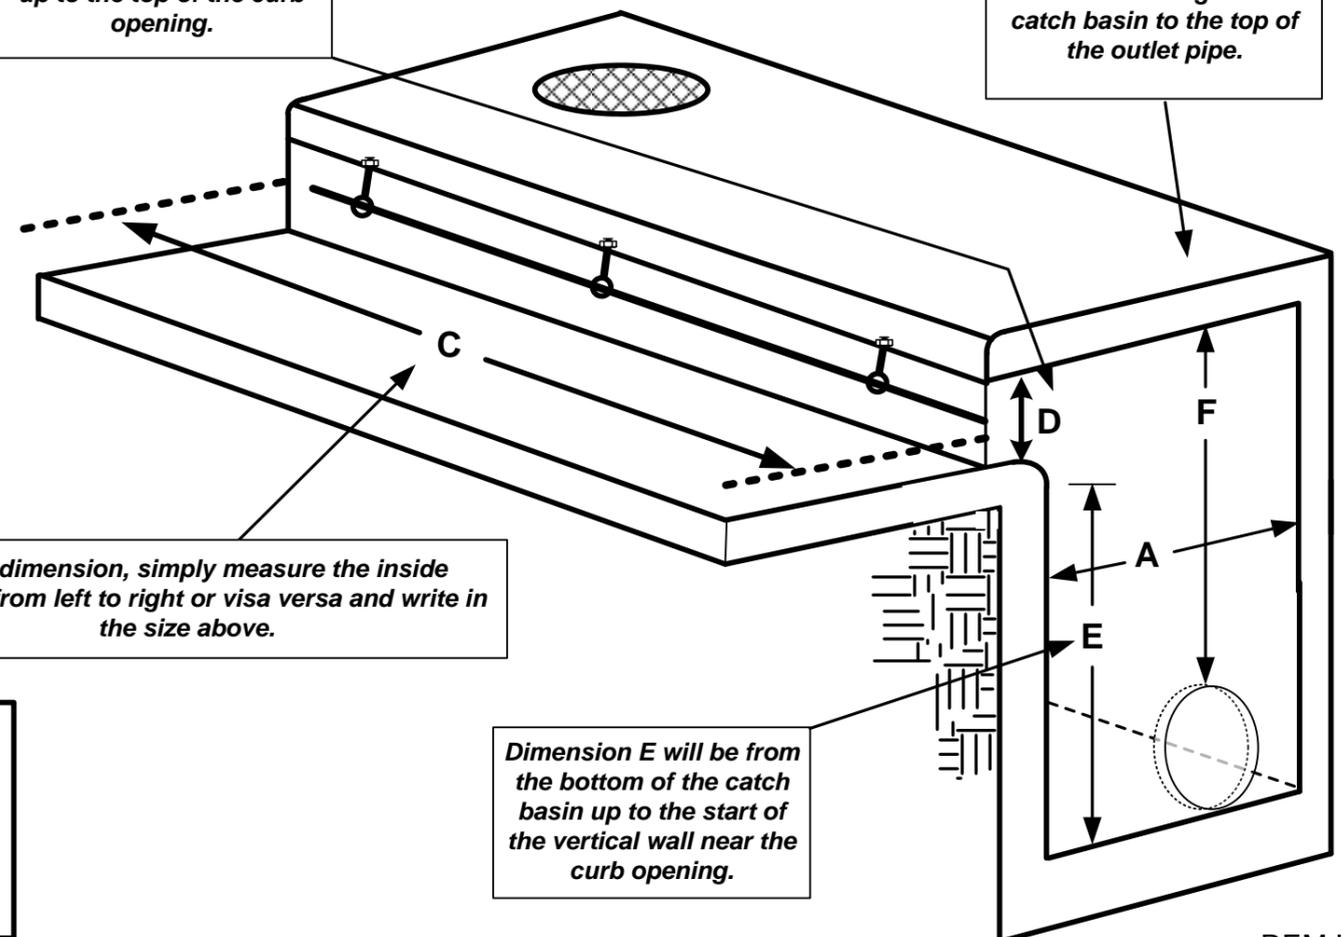

(D)
Inside height of catch basin front entrance

Top View

Dimension D is measured from the bottom of the curb opening (street level) up to the top of the curb opening.

Dimension F is measured from the ceiling of the catch basin to the top of the outlet pipe.

For C dimension, simply measure the inside opening from left to right or visa versa and write in the size above.

Dimension E will be from the bottom of the catch basin up to the start of the vertical wall near the curb opening.

- NOTES:**
1. Please fill in all dimensions that apply within 1/8".
 2. Please mark the location of any obstructions such as pipes, ladder rungs, etc.
 3. Dimensions C & D are the clear openings (or throat opening from the street) of the catch basin.
 4. Dimension E is measured from the bottom of the catch basin up to the start of the inside vertical wall.
 5. Dimension F is measured from the ceiling of the catch basin to the top of the outlet pipe.
