

REM's TRITON 360 (Downspout) Series Filters

REM designed the TRITON -360 (Downspout) Filter Series to provide a highly adaptable solution that allows the flexibility of installing a filtering system for downspouts, close to a buildings outside walls. The TRITON 360 filters may be utilized in new construction or retrofitted in existing downspout structures. They are sized to spec or modified in the field for downspouts with unusual dimensions. Media strategy may be optimized for specific pollutant concerns.

SIDE VIEW

Notes:

- The TRITON - 360 Series Filters are available in sizes to fit most industry standard downspout sized pipes both square and round. Custom sizes are also available to fit most applications.
- Filter cartridge housings are constructed utilizing Type 304 Stainless Steel, with 2" welded square openings.
- Removable cartridge tops are constructed utilizing over **80% recycled** ABS Plastic.
- Filters can be made in different heights depending upon the application. Taller filters will capture larger amounts of debris and higher flow rates.
- REM TRITON replacement Filter Media Packs are charged with REM FOG media an expanded volcanic ash medium treated to be highly hydrophobic housed in a durable geo-textile perforated polypropylene woven fabric. REM FOG media effectively encapsulates liquefied petroleum hydrocarbons (Fats, Oils & Grease including animal fats). The media's hydrophobic characteristic allows for greater polishing of flow resulting in the reduction of Total Suspended Solids (TSS). Suspended solid reduction includes but is not limited to debris, trash, silt sediment and agglomerated heavy metals. (Additional media options are available including mixed blends of granulated carbon [AC] and Zeolite [ZEO].)
- Filter designs include a high flow overflow bypass to eliminate pooling or flooding during heavy rain events.
- Replacement Media-Pak's are easily removed for servicing.
- See our Specifier Sheet for sizes, models and flow rates.
- Maintenance information and replacement media packs are available upon request by contacting REM at sales@remfilters.com or (888) 526-4736.
- Made in the USA.
